October 10, 2011

OUR PURPOSE

We are a non-profit organization that is focused on supporting the Klein Collins High School FFA students. The club members are volunteers who offer their time and resources to help fund FFA chapter activities.

Our fundraising provides:
Scholarships
Barn Supplies
FFA Department Needs

The FFA program is an educational experience that encompasses all aspects of the agricultural industry from the business to the technology. FFA students are prepared for premier leadership and aspire to be the best professionals in their field. These are just a few of the studies our students are involved in:

Agricultural Sciences
Marketing & Business
Environmental & Natural Resources
Veterinary Science & Medicine
Food Technology & Production
Agricultural Mechanics
Land & Wildlife Management
Horticulture
Leadership Development

Learning agriculture through the FFA is more than studying books and taking tests. FFA students apply what they learn in the classroom by developing projects and presenting them at shows where they compete with their peers. Our students also compete in a wide variety of skill based meets where their judging, speaking, and facilitation skills are tested and ranked. All of these competitions prepare FFA students with experience that directly applies to the business world regardless of industry. This is hard work over and above the regular school day, but FFA students understand that hard work is required to be successful in any endeavor.

Our students are guided by the National FFA Motto:

**Learning to Do, Doing to Learn, Earning to Live,
 Living to Serve.**
